REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art has failed to suggest either singly or in combination a novel fold flat vehicle seat. The applicant has disclosed the use of a link arm member mounted on the seatback member for movement therewith between a lowered track engagement position and a raised track clearing position. When the link arm member is in the lowered track engagement position, it interacts with a link engaging portion of fixed track member to permit the forward folding of the seatback member a substantially horizontal load supporting position and to thereat preclude longitudinal motion of the seat assembly relative to the fixed track member, so as to retain the seat assembly in its predetermined rear longitudinal position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Reference Nos. 5,597,206, 4,973,104, and EPO 0232,685 show other vehicle seats.
